Windows 7/8/8.1 Setup

Note: Do not connect your adapter to your PC before installing the drivers.
1. Download the software driver from http://www.dell.com/support/.
   Double click on "Displaylink.exe" when driver is downloaded.

2. After installation, accept the End User License Agreement to continue.
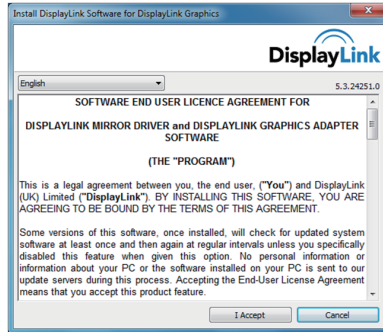

3. Click "I Accept". DisplayLink Core software and DisplayLink Graphics will be installed.
4. Connect your Adapter and peripherals to your PC.
   * Adapter supports a single video output capability with the choice of two ports: 1 x HDMI or 1 x VGA

DisplayLink Manager Menu

| Menu Option	Description
DisplayLink Manager	Clicking on this item will show the version of DisplayLink software installed.
Check for Updates	Windows update checking.
DisplayLink Devices	Connected DisplayLink devices checking.
Audio Setup	Opens the Windows Audio Configuration window.
Video Setup	Opens the Windows Screen Resolution window.
Screen Resolution	Displays a list of available resolutions.
Screen Rotation	Rotates the screen in clockwise or counter-clockwise direction.
Extend To	Extends the display to the right or left of the main display.
Extend	Extends the Windows desktop onto the display.
Set as Main Monitor	Sets this screen as the main display.
Notebook Monitor Off	Switches off the display of the notebook and makes the DisplayLink display the main display.
Mirror	Copies what is on the main display and reproduces it on this display.
Off	Switches off the display.
Fit to TV	Use this function to adjust the size of the windows to fit the TV screen.

To set the display into extended mode
1. Click on the DisplayLink icon . 🖥
2. Select Extend.
   The device is now extended in the direction it was the last time the display was in this mode. For more control, use the Extend To submenu and select one of the options. This puts the device into extend mode, and places it to the Left/Right/Above/Below the main (primary) monitor.
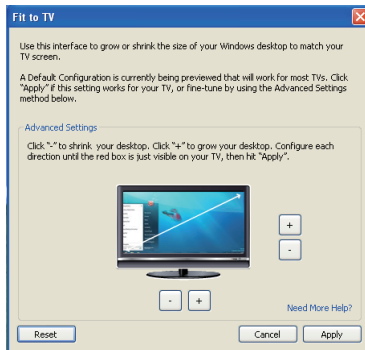

To set the display into mirror mode
1. Click on the DisplayLink icon . 🖥
2. Select Mirror.
   The resolution, colour depth and refresh rate of the primary screen are replicated on the monitor connected to the DisplayLink USB Graphics device.

Fit to TV configuration

1. To configure Fit to TV, choose the option from the DisplayLink GUI.
   The following interface appears

2. You will also see a red border on the DisplayLink screen
   The red border shows the size of the new Windows desktop. Use the "+" and "-"
   controls on the Fit to TV GUI to
   change the size of the red border until it fits on the TV screen.
   Note: Finer configuration of the size of the border can be achieved by holding down the
   CTRL key and clicking the "+" and "-".

3. Once the red border is at the edges of the TV screen, click "Apply" to resize the
   Windows desktop.
Troubleshooting guide for Dell 4-1 Adapter (DA100)

Troubleshooting	Suggested Solutions
There is no video on the monitor attached to the Adapter	Check the video connection cables Unplug from the power, wait 10 seconds, and then re-connect
The video on the attached monitor is distorted or corrupted	Check video connection cables Check the video resolution under Control Panel\All Control Panel Items\Display\Screen Resolution
The video on the attached monitor is not displaying in extended mode	Change the settings by either: • Configuring under **Control Panel\All Control Panel Items\Display\Screen Resolution** • Switch by cycling the "Windows Key +P"
USB ports are not functioning on the adapter	Unplug from the power, wait 10 seconds and then reconnect Update to the latest USB 3.0 host controller driver
HDCP content is not able to display on the attached monitor	HDCP content support is currently not available
Displaylink Driver not able to install	Get the driver by either: • Downloading the latest driver from Dell support or Displaylink website. • Connect to Windows Update with adapter (by using Wi-Fi or Ethernet port of the laptop)
Laptop failed to boot with adapter connected	Remove all USB devices connected to the adapter; some unqualified boot devices may cause lock up at boot screen
