4. Inserting (or removing) memory card

The camcorder internal memory will only permit minutes of recording time. A microSD memory card (not included) is recommended for recording.
**To insert card:** Push the card in until a click is heard

To remove card: Push card in until a click is heard, then slowly release the card. As card is under minimal tension when locked in memory slot, please use care when removing.

*As the memory card is small in size, it is recommended to use **a small coin** to help insert or remove it.*
5. Turning on the camcorder

Slide and hold until the camcorder turns on or off

The camcorder has two operation modes (Preview and Playback). It is always in Preview mode after switched on. Refer to the diagram below for switching between modes.
