1. Introduction

The Vantec EZ Swap 4 - brings simplicity to your storage needs. A tray-less design allows you to quickly add or remove hard drives on-the-fly without the hassle of dealing with messy wires inside your computer. With a simple insertion of your 3.5" SATA III hard drive into the Vantec EZ Swap 4, instantly gives the hard drive a SATA connection. The stylish LCD on the front door provides vital stats such as the current hard drive temperature and fan speed. Front cooling vent allows for cold air to enter and effectively cool the hard drive while the back fan exhausts the hot air. A security lock is also provided to prevent unwanted hard drive removal or tampering. Fulfilling your never ending quest of finding a simple and effective storage solution has never been any easier with the Vantec EZ Swap 4.

2. Features / Specifications

EZ SWAP 4 – Removable Hard Drive Rack

Feature

- Easy Installation With Tool-Free Design
- Plug and Play
- Fits In Any Standard 5.25" Drive Bay
- Supports 3.5" SATA I/II/III Hard Drives
- Security Key Lock Design
- LED Indicators for Power & HDD Activity
- Front Ventilation with Rear Fan for Air Circulation and Superior Cooling
- LCD To Monitor Temperature and Fan Speeds
- Fail Alarm Warning System

Specifications

- Model	: MRK-401ST-BK
- Device Support	: SATA I/II/III Hard Drive
- Device Size	: 3.5 "
- Internal Interface	: SATA I/II/III
- HDD Capacity	: Up to 4TB*
- Material	: Metal & Plastic
- Dimension	: 148 x 188 x 42mm

*Check our website www.vantecusa.com for any updates

Features/Specifications

3. System Requirements

NOTE :

EZ Swap 4 has a power security function. When there is no hard drive present, the EZ Swap 4 will not power on.

(Figure 6-D)

Instruction

7. LCD Display Function

Thermometer	When critical temperatures are reached, the thermometer will flash.
Fan State Indicator	When the fan is functioning properly, the fan state indicator will have a spinning motion. When the fan is working improperly, the fan state indicator will flash.
Temperature Display	Temperature of the hard drive will be displayed in either °C and °F . (Press "Button +" and "Button -" at the same time to switch between °C or °F state.)
Fan RPM	This displays current RPM of your fan.
Fan Settings	There are three choices. L (Low speed/2300RPM) , M(Medium speed/3600RPM), H(High speed/4500RPM).
HDD Indicator	When a hard drive is inserted, the HDD indicator will be lit. Activity is shown by flickering or flashes.
Button +	To increase the fan speed.
Button -	To decrease the fan speed.

NOTE :

When the temperature is over the critical safe levels of (55°C // 131°F) or if the fan is working improperly, an alarm will sound for 10 seconds and can be muted by pressing any of the fan control button. The alarm will ring every 30 minutes until the problem is resolved.
