Sports MP3 Player with FM Radio

INSTRUCTION MANUAL

Please read this manual carefully before operation.

PRECAUTIONS

	CAUTION WARNING: SHOCK HAZARD, DO NOT OPEN. AVIS: RISQUE DE CHOC ELECTRIQUE. NE PAS OUVRIIR	
CAUTION: TO REDUCE THE RISK OF FIRE AND ELECTRIC SHOCK, DO NOT REMOVE THE COVER (OR BACK) OF THE UNIT. REFER SERVICING ONLY TO QUALIFIED SERVICE PERSONNEL.		

The lightning flash with arrowhead symbol within an equilateral triangle is intended to alert the user to the presence of uninsulated "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock.

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operation and servicing instructions in the literature accompanying the appliance.

For Customer Use:

Enter below the serial number that is located on the unit. Retain this information for future reference.

Model No. _____ MP-C546 _____

Serial No. _____

WARNING:

To prevent fire or shock hazard, do not expose this device to rain or moisture. Dangerous high voltage is present inside the enclosure. Do not open the cabinet.

CAUTION:

To prevent electric shock, match wide blade of plug to wide slot of outlet and fully insert.

WARNING:

Handling the cords on this product will expose you to lead, a chemical known to the State of California to cause cancer, and birth defects or other reproductive harm. **Wash hands after handling.**

For recycling or disposal information about this product, please contact your local authorities or the Electronics Industries Alliance: www.eiae.org.

PRECAUTIONS

PROTECT YOUR HEARING:

Hearing experts advise against the constant use of personal stereos played at high volume. Constant exposure to high volumes can lead to hearing loss. If you should experience ringing in the ears or hearing loss, discontinue use and seek medical advice.

NOTICE:

This product is protected by certain intellectual property rights of Microsoft. Use or distribution of such technology outside of this product is prohibited without a license from Microsoft.

IMPORTANT SAFETY INSTRUCTIONS

- 1. Read Instructions:** All the safety and operating instructions should be read before the product is operated.
- 2. Retain Instructions:** The safety and operating instructions should be retained for future reference.
- 3. Heed Warnings:** All warnings on the product and in the operating instructions should be adhered to.
- 4. Follow Instructions:** All operating and usage instructions should be followed.
- 5. Cleaning:** Unplug this product from the wall outlet before cleaning. Do not use liquid cleaners or aerosol cleaners. Use a damp cloth for cleaning.
- 6. Attachments:** Use only attachments recommended by the manufacturer. Use of other attachments may be hazardous.
- 7. Water and Moisture:** Do not use this product near water (e.g., near a bath tub, washbowl, kitchen sink, laundry tub, in wet basements, or near a swimming pool and the like).
- 8. Accessories:** Do not place this product on an unstable cart, stand, tripod, bracket, or table. Use only with carts, stands, tripods, brackets, or tables recommended by the manufacturer or sold with the product. Any mounting of the product should follow the manufacturer's instructions and should use a mounting accessory recommended by the manufacturer.
- 9.** A product and cart combination should be moved with care. Quick stops, excessive force, and uneven surfaces may cause the product and cart combination to overturn.
- 10. Ventilation:** Slots and openings in the cabinet are provided for ventilation to ensure reliable operation of the product and to protect it from overheating. These openings should never be blocked by placing the product on a bed, sofa, rug, or other similar surface. This product should not be placed in a built-in installation such as a bookcase or rack unless proper ventilation is provided or the manufacturer instructions have been adhered to.
- 11. Power Sources:** This product should be operated only from the type of power source indicated on the rating label. If you are not sure of the type of power supply to your home, consult your product dealer or local power company. For products intended to operate from battery power or other sources, refer to the operating instructions.
- 12. Grounding or Polarization:** This product may be equipped with a polarized alternating-current line plug that has one blade wider than the other. This plug will only fit into the power outlet in one direction. This is a safety feature. If you are unable to insert the plug fully into the outlet, try reversing the direction of the plug. If the plug should still fail to fit, contact an electrician to replace the obsolete outlet. Do not defeat the safety purpose of the polarized plug.

IMPORTANT SAFETY INSTRUCTIONS

13. **Power-Cord Protection:** Power supply cords should be routed so that they are not likely to be walked on or pinched by items placed upon or against them, paying particular attention to cords at plugs, convenience receptacles, and at the point which they exit from the product.
14. **Protective Attachment Plug:** The product may be equipped with an attachment plug with overload protection. This is a safety feature. See the operating instructions for replacement or directions to reset the protective device. If replacement of the plug is required, be sure the service technician has used a replacement plug that has the same overload protection as the original plug as specified by the manufacturer.
15. **Outdoor Antenna Grounding:** If an outside antenna is connected to the product, be sure the antenna system is grounded so as to provide some protection against voltage surges and built-up static charges. Article 810 of the National Electrical Code, ANS/NFPA 70 provides information with regard to proper grounding of the mast and supporting structure, grounding of the lead-in wire to an antenna-discharge unit, size of grounding conductors, location of antenna-discharge unit, connection to grounding electrodes, and requirements for the grounding electrode (see figure).

16. **Lightning:** For added protection for this product, unplug it from the wall outlet and disconnect the antenna or cable system during a lightning storm or when it is left unattended and unused for long periods of time. This will prevent damage to the product due to lightning or power-line surges.
17. **Power Lines:** An outside antenna system should not be located in the vicinity of overhead power lines or other electric light or power circuits, or where it can fall into such power lines or circuits. When installing an outside antenna system, extreme care should be taken to keep from touching such power lines or circuits, as contact with them might be fatal.
18. **Overloading:** Do not overload wall outlets, extension cords, or integral convenience receptacles as this can result in a risk of fire or electric shock.

IMPORTANT SAFETY INSTRUCTIONS

19. **Object and Liquid Entry:** Never push objects of any kind into this product through openings as they may touch dangerous voltage points or short-out parts that could result in a fire or electric shock. Never spill liquid of any kind on the product.
20. **Servicing:** Do not attempt to service this product yourself as opening or removing covers may expose you to dangerous voltage or other hazards. Refer all servicing to qualified service personnel.
21. **Damage Requiring Service:** Unplug this product from the wall outlet and refer servicing to qualified service personnel under the following conditions:
a) when the power-supply or plug is damaged; b) if liquid has been spilled or if objects have fallen into the product; c) if the product has been exposed to rain or water; d) if the product does not operate normally by following the operating instructions. Adjust only those controls that are covered by the operating instructions as improper adjustment of other controls may result in damage and will often require extensive work by a qualified technician to restore the product to its normal operation; e) if the product has been dropped or damaged in any way; f) when the product exhibits a distinct change in performance—this indicates a need for service.
22. **Replacement Parts:** When replacement parts are required, be sure that your service technician has used replacement parts specified by the manufacturer or have the same characteristics as the original part. Unauthorized substitutions may result in fire, electric shock, or other hazards.
23. **Safety Check:** Upon completion of any service or repairs to this product, ask the service technician to perform safety checks to ensure that the product is in proper operating condition.
24. **Wall or Ceiling Mounting:** The product should be mounted to a wall or ceiling only as recommended by the manufacturer.
25. **Heat:** The product should be situated away from heat sources such as radiators, heat registers, stoves, or other products (including amplifiers) that produce heat.

GETTING STARTED

Connecting Headphones

Connect headphones/earphones to the Headphone Out jack for private listening.

- ✦ Lower the volume level before connecting headphones, then gradually increase the volume for comfortable listening.
- ✦ Hearing experts advise against the constant use of personal stereos played at high volume.
- ✦ Constant high-volume use can lead to hearing loss. If you experience ringing in your ears or hearing loss, discontinue use immediately and seek medical advice.

Connecting Power

The MP-C546 operates on 1 x “AAA” battery for music playback.

Loading a Battery

1. Remove the Battery Compartment Cover.
2. Insert 1 x “AAA” battery, taking care to match the “+” and “-” polarities of the battery with the markings inside the battery compartment.
3. Replace the Battery Cover.

GETTING STARTED

USB Power

When the MP-C546 is connected to a computer's powered USB port, it will draw power over the USB connection.

Using the MP-C546 Controls

Power On/Off

- ✦ To turn your player on, press and hold .
- ✦ To turn your player off, hold  for at least 3 seconds. The LED indicator will darken.

Hold Switch

The Hold feature locks (disables) your player's controls to prevent accidental key presses when it is in your pocket or bag.

- ✦ To lock the player's controls, press and hold the HOLD button for 2 seconds. A Lock icon will be displayed on the screen.

- ✦ To unlock the player's controls, press and hold the HOLD button for 2 seconds again.

GETTING STARTED

Reset Function

You may reset your player if it should freeze or otherwise behave abnormally.

1. Disconnect your player if it is connected to a computer.
2. Remove the battery from the player. Wait 10 seconds, and then replace the battery.
3. Power on your player. Your player has now been reset.

Navigating the Menu Interface

It is easy to use the MP-C546 Navigation Joystick to select menu options, items, and files on your player.

- ✦ To move the selection cursor (highlight), slide the joystick key. To move quickly in any direction, press and hold the joystick in that direction.
 - ✧ To highlight the previous item to the left (or up), press **<**.
 - ✧ To highlight the next item to the right (or down), press **>**.
- ✦ To confirm and enter the current selection, press **OK** (press the Joystick).
- ✦ To return to the previous screen, press **ESC**.

GETTING STARTED

If the  icon is selected, the previous folder's contents will be displayed.
Press  /MENU	Return to Main Menu.

USB CONNECTIONS

Minimum PC Requirements

You can connect the MP-C546 to a computer with a USB port to transfer files to your player or to manage the files on your player. The minimum requirements listed below will allow you to perform basic file management functions; advanced features will require a faster PC and Windows configuration.

- ✦ MS Windows 98SE (Service Pack 1) or ME [USB-MSC];
MS Windows 2000 (Service Pack 3 or above) with Windows Media Player 9 [USB-MSC];
MS Windows XP (Service Pack 1 or above) with Windows Media Player 10 or newer [USB-MTP]
- ✦ Pentium 166 MMX processor (or equivalent)
- ✦ 96MB RAM
- ✦ 50MB of available hard drive space
- ✦ Internet connection
- ✦ Video Display card
- ✦ Sound card
- ✦ USB 1.0 port (a USB 2.0 Hi-Speed port will enable file transfers up to 40 times faster).

New versions of Windows Media Player may be downloaded from the Microsoft website at www.microsoft.com.

USB CONNECTIONS

USB Driver Installation (Windows 98SE Only)

It is not necessary to install the USB driver if your computer is running Microsoft Windows ME/2000/XP or newer, or Macintosh OS X. Computers running these operating systems will recognize your player automatically when connected.

If your computer is running Windows 98 SE, please download and install the driver from the COBY website: www.cobyusa.com.

USB Mode (MSC/MTP)

The MP-C546 can use either **USB-Mass Storage Class (USB-MSC)** mode or **USB-Media Transfer Protocol (USB-MTP)** mode to connect to your computer. Both USB modes allow for simple, high-speed transfers of files between your player and a computer, and allow you to use your computer's operating system to view, manage, and transfer files to your player from your computer

There are, however, a few differences to take note of.

USB CONNECTIONS

USB-MSC	USB-MTP
Simple plug-and-play support for all major operating systems (Microsoft Windows 98SE/ME/2000, Macintosh OS X, Linux)	Simple plug-and-play support for Microsoft Windows XP with Service Pack 1 and Windows Media Player 10 (or newer)
Supports Windows Media DRM 9	Supports Windows Media DRM 9 (WMDRM9)
	Supports Windows Media DRM 10 (WMDRM10) — requires Windows XP and Windows Media Player 10 or newer
--	Windows Media Playlist support
USB 2.0 Hi-Speed file transfers	USB 2.0 Hi-Speed file transfers
Database rebuild required after each USB connection.	Database rebuild not required.

In general, USB-MSC mode enjoys wider compatibility with different computers and operating systems, while USB-MTP mode enables advanced features (e.g., playlist synchronization), but requires Windows XP SP1 and Windows Media Player 10 or newer.

To transfer and synchronize encrypted WMDRM10 files, USB-MTP mode (in conjunction with Windows XP and Windows Media Player 10) is required. Most online music stores and subscription services use WMDRM10 files. Please refer to the documentation of either Microsoft or the store from which you purchased your music for more information and support.*

USB CONNECTIONS

WMDRM9 may be used for music purchases, only. WMDRM10 is necessary for subscription-based services.

Content owners use Windows Media digital rights management technology (WMDRM) to protect their intellectual property, including copyrights. This device uses WMDRM software to access WMDRM-protected content. If the WMDRM software fails to protect the content, content owners may ask Microsoft to revoke the software's ability to use WMDRM to play or copy protected content. Revocation does not affect unprotected content. When you download licenses for protected content, you agree that Microsoft may include a revocation list with the licenses. Content owners may require you to upgrade WMDRM to access their content. If you decline an upgrade, you will not be able to access content that requires the upgrade.

*** A few examples of online music stores that support WMDRM are:** AOL Music Now, Napster To Go, URGE, Virgin Digital, and Y! Music (Yahoo! Music).

Music purchased and downloaded from the iTunes music store are AAC files encrypted with Apple Fairplay DRM. The MP-C546 does not support AAC file playback. Please use only MP3, WMA, or WAV music files with your player.

USB CONNECTIONS

Connecting to a Computer

1. Make sure the player is turned off.
2. Use the supplied USB cable to connect the MP-C546 to your computer's USB port.
3. You can switch between USB modes quickly after your player has been connected to the computer. Press and hold **⏻/MENU** during connection to toggle between the USB modes.

USB-MTP Mode

When the MP-C546 is connected under USB-MTP mode:

- ✦ Your computer will automatically recognize the player as an MTP Device. An icon representing your player will appear under "Audio Devices" when you open "My Computer".
- ✦ It may take Windows several minutes to recognize and set up the device the first time it is connected depending on your hardware configuration.

USB-MSC Mode

When the MP-C546 is connected under USB-MSC mode:

- ✦ Your computer will automatically recognize the player as an MTP Device. An icon representing your player will appear as a "Removable Disk" when you open "My Computer".
- ✦ It may take Windows several minutes to recognize and set up the device the first time it is connected depending on your hardware configuration.

USB CONNECTIONS

Transferring Files

The USB 2.0 High-Speed connection makes it easy to transfer music files (or any other data files) quickly between the player and your computer. Simply use the player as you would a floppy disk using basic operating system commands.

If you need further assistance with transferring files, please refer to your operating system's instruction manual or on-screen help. If you are using media management software such as iTunes, Winamp, or Windows Media Player, please refer to their documentation for support.

Do not disconnect or otherwise interrupt the player during transmission - this could damage or corrupt the player's firmware or your files. If the player is accidentally disconnected and is not working properly, reset your player (see the Getting Started section for details).

USB-MTP Mode

Files transferred under USB-MTP mode will not be available when using a USB-MSC connection (and vice versa).

When the MP-C546 is connected under USB-MTP mode:

1. Double-click the "My Computer" icon on your desktop and then double-click the MP-C546 icon (MTP HD Multimedia Player).

USB CONNECTIONS

2. Your player contains two folders: Data and Media.

- ✧ Drag your media files to the Media folder (e.g., MP3, AVI, JPG, WAV, WMA files).
- ✧ Drag all other types of files to the Data folder for storage (e.g., TXT, DOC, XLS, etc). Data files are only visible from a computer; these files will not be available from within the player itself.

USB CONNECTIONS

USB-MSC Mode

Files transferred under USB-MSC mode will not be available when using a USB-MTP connection (and vice versa).

When the MP-C546 is connected under USB-MSC mode:

1. Double-click the “My Computer” icon on your desktop and then double-click the MP-C546 icon (Removable Disk).
2. Drag your media files (or other files) to the Removable Disk.
 - ✧ You may choose to use folders/subfolders to organize your media and data.

Disconnecting from a Computer

Disconnect your player as instructed below to prevent data loss or file/firmware corruption.

USB-MTP Mode

If you are using a USB-MTP connection, you can simply disconnect the cable from your player.

USB-MSC Mode

1. Double-click the green arrow in the taskbar located on the lower-right side of the computer screen (Safely Remove Hardware).

USB CONNECTIONS

- 2. Safely Remove Hardware:** Select “USB Mass Storage Device” from the list that appears and then click on “Stop”.

Stop a Hardware Device: Select “USB Mass Storage Device” from the list that appears and then click on “OK”.

Select “USB Mass Storage Device” from the list that appears and then click on “OK”.

- 3.** When the “Safe to Remove Hardware” window appears, click the OK button and disconnect the USB cable from the player and your computer.

FIRMWARE UPGRADES

Upgrading the Firmware

From time to time, COBY may release firmware upgrades to improve the performance of the MP-C546 or to add additional features. Please check the COBY website periodically at www.cobyusa.com to see if new firmware has been released for your player. If you are experiencing abnormal behavior with your player, you may choose to restore (format) your player before updating its firmware.

Do not interrupt the firmware upgrade process — doing so could damage your player and render it inoperable.

See the documentation that is included with the firmware upgrade file for detailed instructions.

1. Connect your player to the computer.
2. Download the latest firmware for your player from www.cobyusa.com. Save this file to the computer.
3. Double-click the downloaded file (you may need a file compression utility installed on your computer). In the window that appears, double-click the file “factory4.exe” to start the upgrade utility.
4. Follow the on-screen instructions to start the upgrade process.
5. When the upgrade is complete, disconnect your player from the computer.
6. Turn on your player to complete the firmware upgrade process.

TROUBLESHOOTING

I cannot transfer files to the player.

- ✦ Ensure that your computer is running a supported operating system.
- ✦ If you are running Microsoft Windows 98 SE, ensure that the USB driver has been properly installed.
- ✦ If using the supplied USB extension cable, ensure that it is securely attached to the player and the PC, or try using another USB cable.
- ✦ If you have connected the player through a USB hub, try connecting the player directly to your computer.
- ✦ Ensure that the player's memory capacity is not full.
- ✦ Ensure that the Hold switch is disengaged.

There is no sound during playback.

- ✦ Check the volume level.
- ✦ Ensure that the headphones are attached securely to the player.

The sound quality of the music is poor.

- ✦ Try playing the file on your computer. If the sound quality is still poor, try downloading the file again or re-encoding the file yourself.
- ✦ Ensure that the bit rate of the file is not too low. The higher the bit rate of the file, the better it will sound. The minimum recommended bitrate is 128kbps for MP3s and 96kbps for WMAs.

TROUBLESHOOTING
