Creative®
Live! Cam Video IM Pro

Just plug-in for instant internet chatting!

Creative's Live! Cam Video IM Pro has been designed to enhance your online communications. Inside its sleek, modern design we've installed a high-resolution sensor, Smart Face Tracking and Auto Tuning to keep you in the picture and ensure top-quality images when you're online or capturing desktop videos or snapshots. And we've ensured great sound too by adding a built-in microphone with Live! Audio technology to cut-out background noise. To make installation a snap, we've made this classy webcam UVC Plug and Play compliant, so you can plug it in and start chatting immediately! We've also included a headset for private listening as well as Advanced Video FX, which allows you to add special effects and backgrounds while you chat

- **VGA sensor gives crisp, clear images when chatting online, taking snapshots or recording home video. Maximum resolution 1.3 Megapixel (interpolated).**
- **Auto Tuning automatically adjusts lighting and brightness to give the clearest possible picture.**
- **Smart Face Tracking automatically follows the speaker while chatting or recording video. Advanced Video FX adds visual effects and special backgrounds during video chatting.**
- **Built-in microphone and Live! Audio technology eliminate background noise for clearer, more natural chatting. Headset included for private listening.**
- **USB 2.0 certified for fast connection to the PC. UVC Plug and Play compliance ensures out-of-the-box use without installing drivers.**
- **Compatible with popular messaging services, including Skype.**
